SORENTO

A DYNAMIC DESIGN THAT ENHANCES CITY LIFE.

The sharp, assertive looks of the Kia Sorento, fronted by its distinctive 'tiger-nose' grille, perfectly reflect the sophisticated abilities of our flagship model. Designed from the ground up, the Sorento offers the highest levels of driving involvement, comfort, safety, performance with 5- or 7-seat versatility – while retaining the capabilities and build quality expected of a Sorento.

Its advanced body structure is extremely strong, making the Sorento one of the safest vehicles in its class. Yet clever engineering has cut weight, lowering fuel consumption and emissions, and maximising the impressive performance of its state-of-the-art engines. Superior levels of handling and ride, provided by a combination of highly developed suspension and active safety features, make these new levels of refined performance accessible and enjoyable.

FLEXIBLE LUXURY AT YOUR FINGER TIPS

The spacious and flexible interior of the 7-seater Sorento is a rare blend of functionality, luxury and style, allowing seven people to travel in total comfort. Getting comfortable is the work of a moment, thanks to a height adjustable driver's seats and sumptuous leather-wrapped steering wheel that is tilt-and-telescopic adjustable.

The elevated seating position offers a clear view of the road ahead and imparts a feeling of security that's backed up by six airbags. From here, the high levels of standard equipment are easily accessed, such as the air conditioning (Dual Auto in both GSE & GLS models) and six speaker radio/CD player with AUX/ USB input for your iPod®. Standard on GSE & GLS models is Bluetooth with voice recognition control and steering wheel mounted controls.

The sporty trio of attractively-lit dials provides information at a glance, while the trip computer makes it easy to maximise the excellent economy of the new engines.

The Sorento is equally adept at accommodating extra luggage, thanks to its spacious cabin and 60/40 split folding 2nd row seats.

1. Cruise control: Cruise control with steering wheel controls comes as standard on both GSE & GLS models.

2. Aux and iPod®: Enjoy virtually any music source in your Sorento with built-in audio streaming, AUX, USB and iPod® connectivity plus high-fidelity output.

Bluetooth®: The Kia Sorento helps you keep in touch, even when you're on the road. Thanks to Bluetooth® you have the benefit of hands free access to your phone directory. Bluetooth® with voice recognition control is standard on GSE & GLS models only.

3. Dual separate climate control: Both driver and passenger can control the fully automatic air-conditioning system with an eight-level fan adjustment to suit their temperature preference.* This is a standard feature on the GSE and GLS models.

The sophisticated structure of the Sorento has produced a longer cabin that provides three rows of comfortable seating for up to seven passengers. At the same time, the multiple seating options make light work of accommodating any combination of passengers and luggage.

The second and third rows of seats fold completely flat, so an enormous luggage area of up to 1,525 litres is created, with additional seats available at a moment's notice.

The Sorento's 50/50 split third row seats and 60/40 split second row seats make carrying long or bulky items simple – and deciding between who to take or what to take a thing of the past.

1. 2nd & 3rd row folded. 2. Partial 2nd & 3rd row folded. 3. 3rd row folded. 4. Partial 3rd row folded

The generous headroom and legroom, advanced suspension and high levels of equipment providing by the Kia Sorento allow driver and passengers alike to enjoy any journey in space and composure.

The panoramic sunroof* makes getting there even more enjoyable. The three-quarter length glass roof provides invigorating natural light, while the integrated tilt and slide sunroof adds fresh air whenever desired.

*Panoramic sunroof available as standard on GLS model.

TOTAL PROTECTION FOR ALL ON BOARD

Your safety is our top priority. The Sorento range has been awarded a 5-Star Euro NCAP rating making it one of the safest SUVs on the market. It achieved an 87% rating for Adult Occupant Protection (an impressive 31.2 points from a maximum possible score of 36) and 84% for Child Protection (41 points from a maximum possible score of 49 points).

The Sorento has been designed to keep everyone on board as safe as possible. That's why it's fully equipped with a range of active safety systems to help steer away from trouble. Yet, should a collision occur, the new Sorento is equally adept at protecting occupants, as proven by its 5-Star Euro NCAP rating. This was achieved with an 87% rating for Adult Occupant Protection and 84% for Child Protection.

The dynamic abilities of the Sorento are enhanced by Electronic Stability Control (ESC) which brakes individual wheels whenever slip is detected, maintaining control in even the most extreme or treacherous conditions.

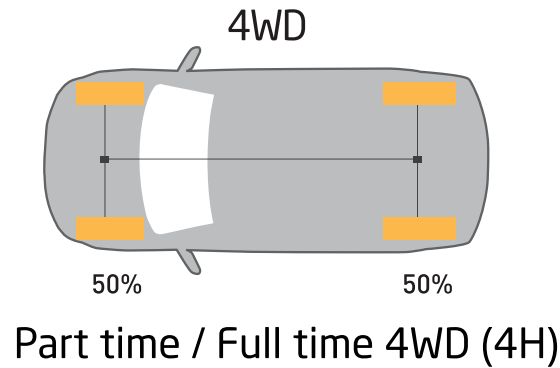

SUPERIOR POWER, EFFICIENCY AND PERFORMANCE

The 2.2 litre diesel engine and both the manual and automatic transmissions of the Kia Sorento provide the all-conditions performance to match its composed handling and purposeful looks.

The 4WD diesel engine provides power and flexibility, while returning economy figures expected of smaller vehicles. The choice of 6-speed manual or automatic gearboxes means there is a Sorento model available to suit all motoring needs.

The 2.2 CRDi engine is highly fuel-efficient and fitted with a Diesel Particulate Filter (DPF), meaning it complies with Euro 5 emissions standards yet outperforms most 4-cylinder and many V6 engines. Delivering 194 bhp and a muscular 422Nm of torque, it is smooth and responsive at all speeds, thanks to its Variable Geometry Turbocharger (VGT).

1. 6-speed manual transmission: The 6-speed manual gearbox, available with diesel engine, offers maximum control through a positive change action. Its perfectly judged ratios allow the driver to extract the full performance from the Sorento or to make the most of the available torque and enjoy maximum economy.

2. 6-speed automatic transmission: The Sorento's advanced automatic gearbox features smart technology that can save up to 12% in fuel compared to more conventional automatic transmissions. With six speeds, it makes maximum use of the engine's power and responds quickly and seamlessly.

A FRESH TAKE ON SUV ARCHITECTURE

Kia is driven by innovation – the Power to Surprise. The exterior styling of the Sorento encapsulates this forward-looking approach to vehicle design, with very European style cues. Combining clean lines with elegant details, the exterior styling of the new Sorento leaves no doubt about its ability to deliver dynamic driving pleasure. The Sorento brings together the credentials of a capable SUV with the dynamic style of a passenger car, creating a shape that truly stands out from the crowd.

1. Rear combination lamps: The large rear tail lamps sit high beneath the strongly-defined rear window, emphasising the new Sorento's stable stance. On GLS models, the rear lamps are lit by LED, which illuminate faster and brighter, enhancing safety and style.

2. Electrically adjustable door mirrors: The single-body colour-matched door mirrors are electrically adjustable and heated for your convenience and their aerodynamic style reduces airflow and outside noise. On GSE & GLS

models, the mirrors come with integrated LED indicator lights for improved visibility.

3. Front grille: The Sorento features the Kia 'tiger-nose' grille, designed by Kia's design chief, Peter Schreyer, sitting above the deep two-tone chrome bumper.

4 Luggage space: The Kia Sorento is based on a body shell that's 95mm longer than before so that even with seven seats in place, there's class leading storage space, with 111 litres available when all seats are in position and an impressive 1,525 litres with seats folded.

Innovative and efficient use of space and seating arrangements ensure you can accommodate bulky or lengthy items with ease, while greater headroom, legroom and shoulder room for occupants make the Sorento truly family-friendly.

5 Cargo under floor storage compartment: Beneath the boot lies a most useful underfloor storage compartment. Here, delicate or dirty items can be

placed, away from the main luggage area and safely out of sight.

6 Cargo net: The cargo net is a neat and simple way to keep loose items secure in the trunk. When it's not needed, the net can be folded away and stored in the underfloor storage compartment. This cargo net comes as standard on GSE & GLS models

7 Cargo screen: The cargo screen keeps your personal belongings out of sight and helps to shield luggage from heat. With a retractable spring loaded operation, it slides smoothly away when not in use.

OPEN UP TO NEW POSSIBILITIES

There is much more to the Kia Sorento than its dynamic styling and driving capability. It has been designed with practicality in mind. It has space – and lots of it. Even with the seven seats in use you'll find a host of creative storage ideas and thoughtful accessories that enhance your journeys. There are so many you may miss the finer details. The second row seating, for example, features a walk-in device, reclining seat backs and a centre armrest. Headroom in the third row is 64mm higher at 906mm and leg room has been extended by 102mm to 795mm.

1 Centre console: Typically centre console cup holders limit storage elsewhere. By positioning those in the new Sorento alongside the gear lever the lidded centre console now offers vast storage capacity. Because it is deep, it can accommodate items as large as a 14" laptop.

2 Front cup holder: The large front cup holders provide spill-free storage of mugs, cups and bottles. Located alongside the gear lever, they are as convenient as they are practical.

3 Rear cup holder: Twin rear cupholders in the centre armrest of the second row seat ensure that passengers can store drinks safely, making them perfect for children. When not in use, they can be covered, making the armrest even more comfortable to use.

4 Door map pocket: Maps and documents can be stored close by the driver and front passenger in the convenient door-mounted map pockets. Each pocket also has a recess to keep bottled drinks upright when on the move.

5 Electric window console: Switches for all four electric windows are conveniently located together, making adjustment as easy as the flick of a finger. Just as quick to locate are the switches for activating the central locking and folding or unfolding the electrically-folding door mirrors.

KIA MOTORS

ENVIRONMENTALLY YOURS

Kia Motors takes great pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society. Kia Motors has set up an environmental research centre to spearhead the company's drive in the production of less polluting hybrid and fuel-cell vehicles, investing in eco-friendly cars for a greener tomorrow.

The concept of eco-friendly cars is followed through all cycles of a vehicle's life. From design through to recycling, Kia Motors creates innovative products, ensuring state-of-the-art Design for Recycling (DfR) guidelines. Wherever possible, recycled and recyclable materials are used in the production of Kia cars, all major plastic parts being chosen for ease of

disassembly and stamped with a composition code.

Even at the end of a vehicle's life, one of Kia Motors' environmental targets is the eco-friendly take-back and treatment of End-of-Life Vehicles. Operating a rigid process, Kia Motors has selected partners across Europe that guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environmental protection.

Kia Motors Ireland has appointed Greenstreets as our partner to manage the take-back, treatment and recycling of End-of-Life Vehicles in accordance with Directive 2000/53/EC. They can provide advice on whether or not your vehicle qualifies for free take-back and the location of your nearest take-back facility.

DYNAMIC EVOLUTIONS

Driven by innovation: A solar-powered car, a water-fuelled car, a self-navigating "smart" car. No longer are these figments of the imagination but one day could be parked in your garage. Kia researchers are working around the clock to create the ultimate driving solutions with the safest, easy-to-drive and environmentally-friendly features. Kia's Namyang R&D Centre in Korea and our overseas research and design facilities in the USA, Japan and Germany are combining

efforts to develop new vehicles that satisfy the diversified needs of each region of the world. By ushering in a new generation of cars that feature high impact-durability frames, on board "datainfotainment" systems and fuel efficient, lightweight and high-powered engines with reduced emissions and noise, Kia will spearhead automobile innovation in the 21st century.

KIA MOTORS

Quality you can see, feel and call upon

At Kia, our quality promise extends beyond the factory floor. We want to ensure you always get the best service possible. Our revolutionary 7-year warranty reflects this commitment. You'll also find it in a whole range of Kia initiatives designed to create better, more efficient and more enjoyable cars.

Stay in touch with Kia

Visit www.kiamotors.ie for all the latest news, updates and special offers. Follow our involvement in global sporting events such as our sponsorship of tennis star Rafael Nadal. Or find out how we support Special Olympics Ireland and The Olympic Council of Ireland.

7-year vehicle warranty

Every Kia Sorento in Europe will benefit from a 7-year/150,000 km new car warranty. This warranty is free and transferable to subsequent owners, provided the car is regularly maintained in accordance with the servicing schedule.

5-year paint warranty

High quality body paint ensures long-lasting protection and shine for your new Kia automobile.

12-year anti-perforation warranty

Your new Kia automobile comes with superior corrosion protection and a warranty against rust from the inside out.

Financing with Kia Credit

Your local Kia dealer is your partner in establishing a financing plan that's best suited to your needs. Please ask for details.
